

Art & Nature journaling: Thursdays: 11:20-12:20

Grade Level: 1-2 (some 3rd graders will be considered if class size allows)

Teacher: Christina Cottrell

Student Fee: \$70

Class Size: Max 15

Course Description: In this class, we will alternate between one art study, and one nature hike/journaling session. The students will be introduced to several famous artists and explore different styles of painting/drawing techniques. They will create with mixed media, like watercolor, acrylic paint, oil pastel, colored pencil and more. We will then take those media outside and record fascinating objects from our nature walk in their nature journal.

As part of this course will take place outdoors (remaining on church property), it will be important for students to dress appropriately for the weather. In cases of extreme weather (rain or excessive snow), obviously, we will adjust plans and remain indoors.

Supplies: The above class fee will cover each student's art supplies, nature journals and accompanying nature notebook. Some additional items you could bring from home that may be helpful (but not required) for your kid on nature walk would be: magnifying glass, net, binoculars, a nature box/bag for collecting treasures to take home.
